Terms and conditions for terminal services - 2023

Product range

Real Rail Sweden AB offers combined terminal services in Luleå, Umeå, Sundsvall, Gothenburg, Falköping, Nässjö, Jönköping and Helsingborg. Business operations at our terminal include the handling of standard unit such as containers, swap bodies and lorry trailers on/off between trains and lorries along with the provision of related terminal services such as the storage of units.

Additional services

We offer additional services at the following terminals. The services must be ordered in writing from Real Rail Sweden AB using the e-mail address, booking@realrail.se

For rail transport, storage on date of arrival, the next day plus date of departure, is free of charge. However, if the unit is collected on a date other than the date of arrival, any costs for additional lifting will be applicable. In the event a unit is held in storage for longer than the permitted free of charge time, the customer will automatically be debited storage charges even if this service has not been ordered. For a price picture, please contact Real Rail at booking@realrail.se

Shunting of trailers includes the venting, suspension and folding of underrun protection. The ADR charge is levied for each instance of handling items of dangerous goods.

Pick up/drop off outside of regular opening hours

If the customer wishes to pick up or drop off units outside of regular opening hours and staff are on duty at the relevant terminal, we can, organise pick up or drop off through a separate written agreement.
